Hotsy High-Pressure Cleaning Equipment
The Undisputed Leader in North America

Nothing Cleans Like a Hotsy!

Industrial-Grade Pressure Washers Known For Perform

You can trust the Hotsy name. It's the #1 Brand in

An extended and deep product line to meet any need

Hotsy has over 100 models of hot water and cold water pressure washers in a variety of fuel options, electrical configurations and portability. But so does the competition. That's not what makes Hotsy better - it's our depth of product line, our knowledgeable dealer network, their commitment to service excellence, and our rich history of providing cleaning solutions. From custom washing systems to trailer mounted mobile cleaning options, it's easy to see why Hotsy is the brand leader.

Detergents Specifically for Pressure Washers

Hotsy detergents are biodegradable and specially formulated for use in hot and cold water pressure washers. You'll find over 40 formulations, customized for specific cleaning applications. Many are Kosher and CFIA approved.

Hotsy detergents are super concentrated with plenty of cleaning power built in. In fact, five gallons of Hotsy Detergent makes up to 600 gallons of cleaning solution! By using Hotsy detergents metered at higher dilutions ratios, you get more bang for your buck and better wash results - all while saving you money.

Convenient Sizes & Delivery Right to Your Door

Hotsy detergents are available in 5-gallon pails, 55-gallon drums and large 200 to 1,000 gallon bulk totes. All Hotsy detergents are economically priced and delivered right to your door. Ask us about our scheduled delivery plans.

Accessories For Faster Cleaning

Hotsy accessories can provide faster, more efficient cleaning. Some of the most common accessories are:

Hose reels - 360° pivot and non-pivot reels can hold up to 200 feet of hose. Reels can be mounted to a wall or directly to a pressure washer for portable applications.

Telescoping wands - 6 to 24 foot extension wands, are ideal for high or hard-to-reach cleaning areas. They can be used with any pressure washer up to 4000 PSI.

Flat surface cleaners - designed for use with most hot and cold water pressure washers, and are ideal for cleaning floors, parking lots, warehouse floors, trailer floors and more.

Turbo nozzles - high-pressure nozzles blast away dirt effortlessly and quickly with a jack-hammer effect.

Performance & Durability...Hotsy, it's what the Pros Use.

in North America used in a variety of commercial & industrial applications.

- **High-efficiency upright burner** - provides maximum efficiency for fast heating, easy venting in indoor applications, plus excellent fuel economy. Heat rises..it makes sense to have an upright burner, right?
- **Hotsy manufactures our own heating coils** - Hotsy manufacturer's 16 heating coils out of superior grade schedule 80 steel. The different sizes allow the washer to come to temperature faster based on the flow rate (gallons per minute).
- **Hotsy manufactures our own burners** - Hotsy Crossfire oil burners are a leader in performance reliability, and energy efficiency. With industry exclusive features that are easy to install and provide a durable, maintenance free package.
- **Best Warranty in the industry** - the heating coils carry a 5-year warranty and a 7-year warranty on the oil end of the Hotsy pump, as well as a lifetime warranty on the brass manifold. One year parts & labor.
- **ETL Certified** - all Hotsy standard pressure washers are ETL-Certified, which means they are engineered for safety and held to a higher standard. Many other brands do not have this certification.
- **Hotsy manufactures our own pumps** - Hotsy high-pressure pumps feature seals in the high-pressure packing assembly that are "nested" in place, supporting the side walls and resulting in greatly increased seal life. We call it NESTechnology™.

What Makes Hotsy So Different?

- 1. WELDED FRAMES** Hotsy frames are welded. They hold up to vibration and are stronger than frames held together with nuts and bolts.
- 2. HIGH PRESSURE PUMP** Hotsy manufactures its own pumps, with a 7-year warranty on the oil end of the Hotsy pump as well as a lifetime warranty on the brass manifold.
- 3. BELTS** High-grade, notched belts operate cooler and have added surface area to prevent slippage.
- 4. PULLEYS** Hotsy cast iron pulleys are sturdy and easy to adjust.
- 5. VIBRATION DAMPENING** Mounting plates reduce engine vibration and thus extend the life of the unit.
- 6. MOTOR** Hotsy only uses name brand motors and engines—Honda, Subaru, Vanguard, and Baldor.
- 7. HEATING COIL** Hotsy has 16 different coils which are sized to come to temperature faster based on the flow rate (gallons per minute) of the machine. The upright heating coil is also more fuel efficient than horizontal coils. 5-year warranty.
- 8. COMBUSTION CHAMBER** Hotsy combustion chambers are extra-efficient as they vent heat upwards through the vertical coil.

The Hotsy Advantage

- 10. TRANSPARENT PLASTIC BOWL FUEL FILTER** Hotsy's transparent plastic bowl fuel filter allows the operator to see and remove any sediment or water in the fuel to protect the burner.
- 11. ROCKER SWITCHES** Hotsy uses low-voltage rocker switches, which are more reliable and less expensive to service than combination barrel switches.
- 12. POWDER COATED PAINT SURFACES** All metal surfaces are phosphatized, then powder coated to ensure excellent paint adherence, protection and longevity.
- 13. POLYETHYLENE FUEL TANKS** Hotsy's cross-linked polyethylene fuel tanks will not rust, decompose or draw condensation, providing a significantly longer life than competitors' metal tanks.
- 14. TRIGGER GUN** The Hotsy trigger gun is ergonomically designed to prevent fatigue and allows for easy maintenance.
- 15. WAND** All Hotsy wands are chrome plated for durability. Hot water units come with insulated wands.
- 16. HOSES** Hotsy hoses are rated beyond the working pressure of the machine. They have a burst rating of four times the working pressure. Hotsy uses only reliable, long-lasting Class A rated pressure hoses.

- 9. THERMOSTAT** Hotsy pressure washers use thermostats for convenience in adjusting the temperature. This saves fuel without compromising cleaning power.

The Industry's Best Dealer Network!

Hotsy has the most knowledgeable and responsive Dealer network in the country

Hotsy has become the #1 pressure washer brand due in large part to our network of authorized dealers located throughout North America. Your local Hotsy dealer has a tremendous amount of hands-on cleaning knowledge, while providing the utmost in customer service. With so many models available, deciding which one you need is often overwhelming. Why worry when you can trust the expertise of your local cleaning specialist?

Service after the sale

When you invest in a pressure washer from a Hotsy dealer, you have the assurance of knowing that your Hotsy has been assembled, tested and fine-tuned before delivery. Plus, your local dealer is there for service and support after the sale. You won't find this at a big box retailer or when ordering from a low cost online store.

Technicians are on the road daily with a fully stocked service vehicle, performing repairs and scheduled maintenance at your location, as well as in-house. Hotsy products carry one of the best warranties in the industry. When you need warranty service, there are over 160 local Hotsy dealerships across the country who will quickly have your equipment up and running.

Your local Hotsy dealer is a one-stop shop for cleaning equipment:

- **Pressure Washers**
- **Genuine Replacement Parts**
- **Time-Saving Accessories**
- **Detergents**
- **On-Site or In-Shop Service & Repair**
- **Installations**
- **Mobile Cleaning Equipment**
